# DON'T WASTE IDAHO!

**I petition all of Idaho's leaders, especially Attorney General Lawrence Wasden and our Governor, to strongly oppose shipments of out-of-state nuclear waste into Idaho that may end up stranded here in violation of Idaho's 1995 Nuclear Waste Agreement**.

**Today, there's a plan to ship in even more nuclear waste from Washington**—more than could be reasonably treated and exported within the one-year time period required by Idaho's 1995 Nuclear Waste Agreement. What's more, **this potentially flammable and explosive waste has never been tested** for safe transport over public roads and rails. **The plan is to truck it through Idaho's most populous cities, including Boise, Pocatello and Twin Falls**.

As the fastest growing state in the country, Idaho's economic future depends on clean land and clean water. Please Don't Waste Idaho and **stop nuclear waste!**
